### University Credits 4.0 Project Group Proposal 2020/2021

### **Interim Professor for IT security**

### **Research in Software Security** Java Security **Vulnerability Analysis Usability in Security Type Systems Static Program Analysis**

**Software Engineer** 

# whoami

## Current Transcripts

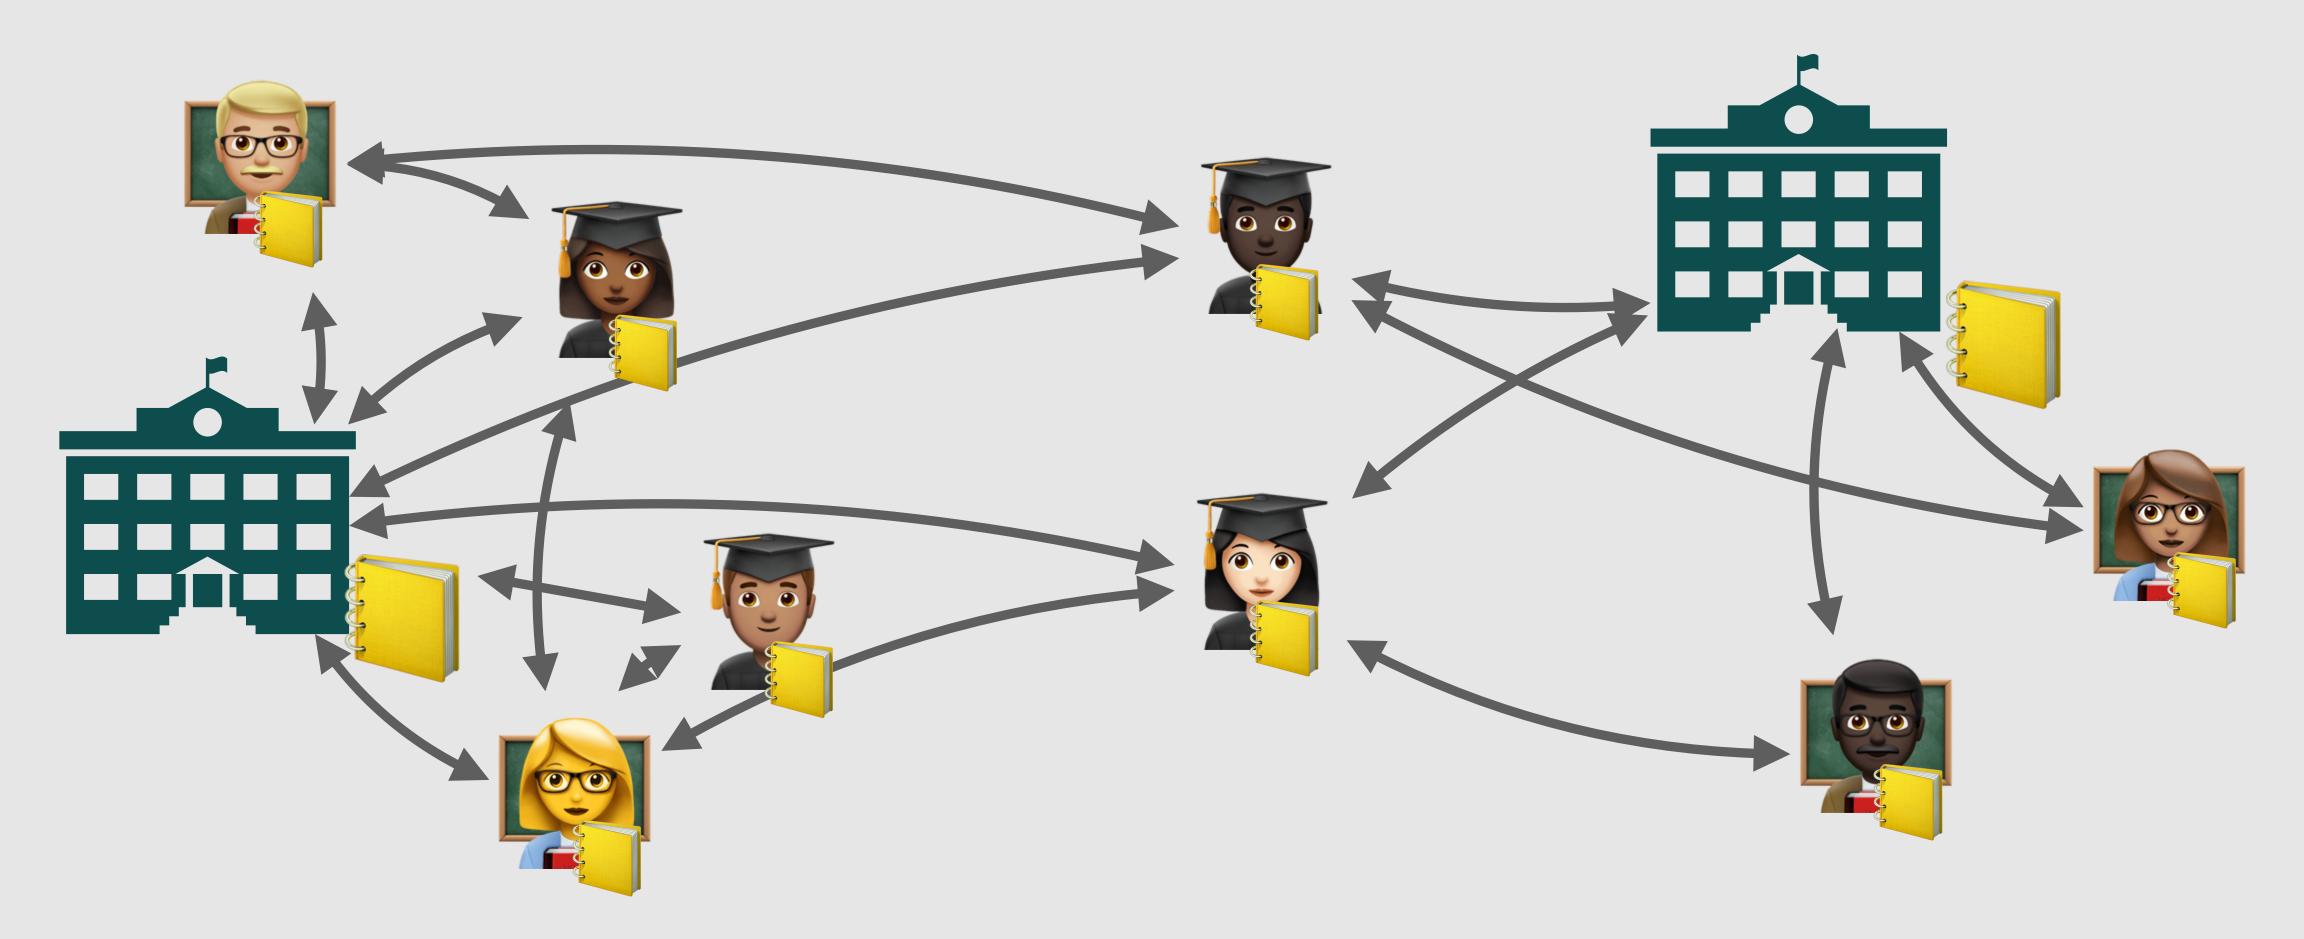

## **Challenging Trust:** Changing Location

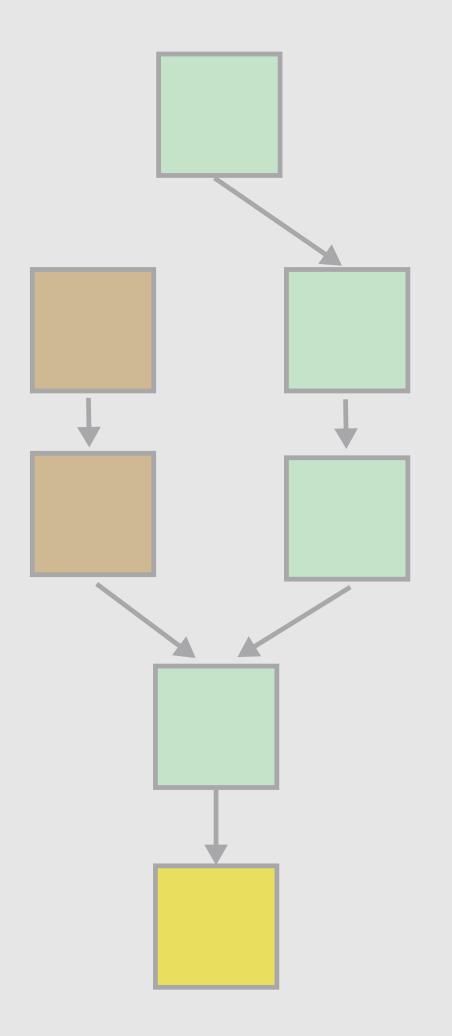

## Blockchains

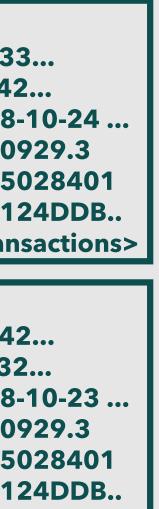

**Cryptographic Datastructure** ┿ **Peer-to-Peer Networking** => Blockchain

But isn't this all public?

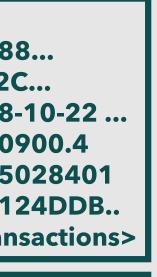

## Blockchains

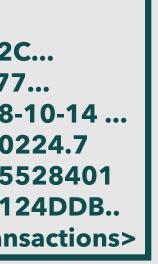

### **More general: Distributed Ledger**

Block Height	15

## Bbitcoin

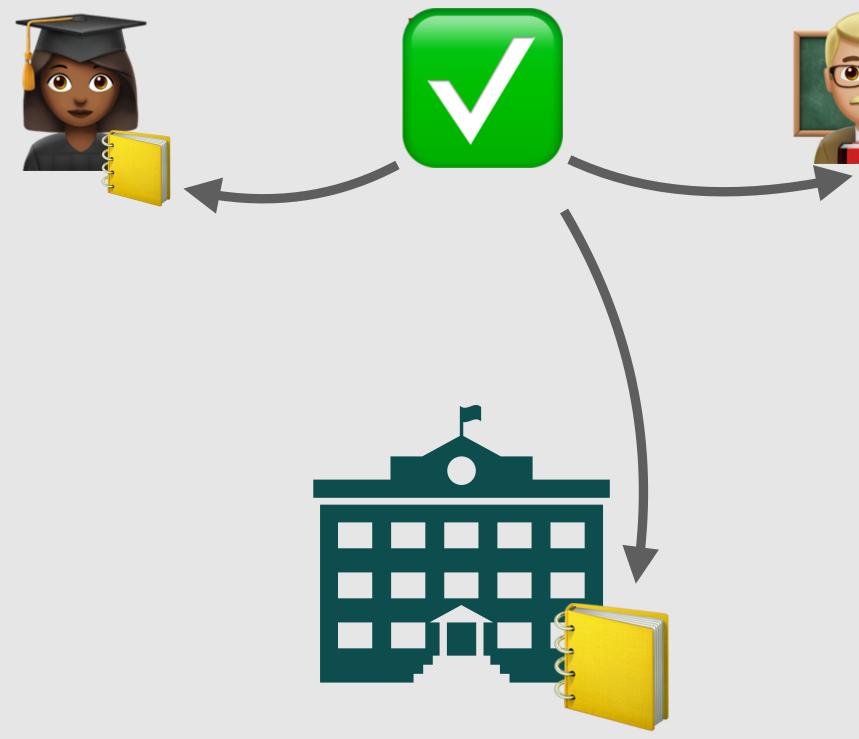

Cryptocurrency is an application that sits on top of blockchain. Not the other way around.

## Permissioned Blockchains

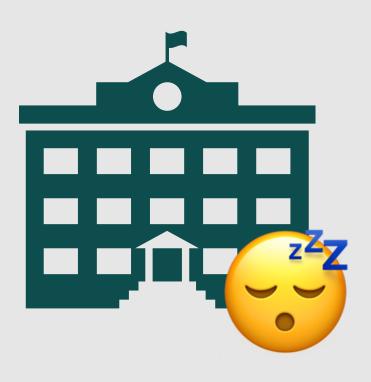

Elli Androulaki et al. Hyperledger fabric: A distributed operating system for permissioned blockchains. In Proceedings of the Thirteenth EuroSys Conference, EuroSys '18, New York, NY, USA, 2018. Association for Computing Machinery. doi:10.1145/3190508.3190538.

## **Use Case 1: Receiving Course Credit**

Yes of course, here is my token for that.

## Use Case 2: Enrolling

Did you take the introductory courco?

**Cool! Here is your enrollment** token.

### CRYPTO CRYPTO CRYPTO

ÓÒ

## Meta: Working Mode

### Have an interest in security and privacy

### Be willing to work a year on this

### **Open source is cool for you**

### "I'm just a frontend/backend person" will not work!
